

Daily Health Screening for COVID-19 for Anyone Entering DCP

We ask that parents do an at-home screening every morning before attending preschool. If for any reason your child cannot come to preschool, email the preschool to let us know. If your child or a family member has covid, email the school Director for information on when it's safe to return to preschool.

Students should not be at DCP if they are showing symptoms such as fever (100.4 or greater), chills, shortness of breath, difficulty breathing, new cough, new loss of taste or smell, runny nose, congestion, vomiting, and/or diarrhea.

1. Does your child have any of the following symptoms?

Fever (100.4 or greater)
Chills
Shortness of breath or difficulty breathing
New cough
New loss of taste or smell
Runny nose or congestion
Vomiting
Diarrhea

If the student or anyone in their household has any of these symptoms they should go home, stay away from other people, and get tested for COVID-19

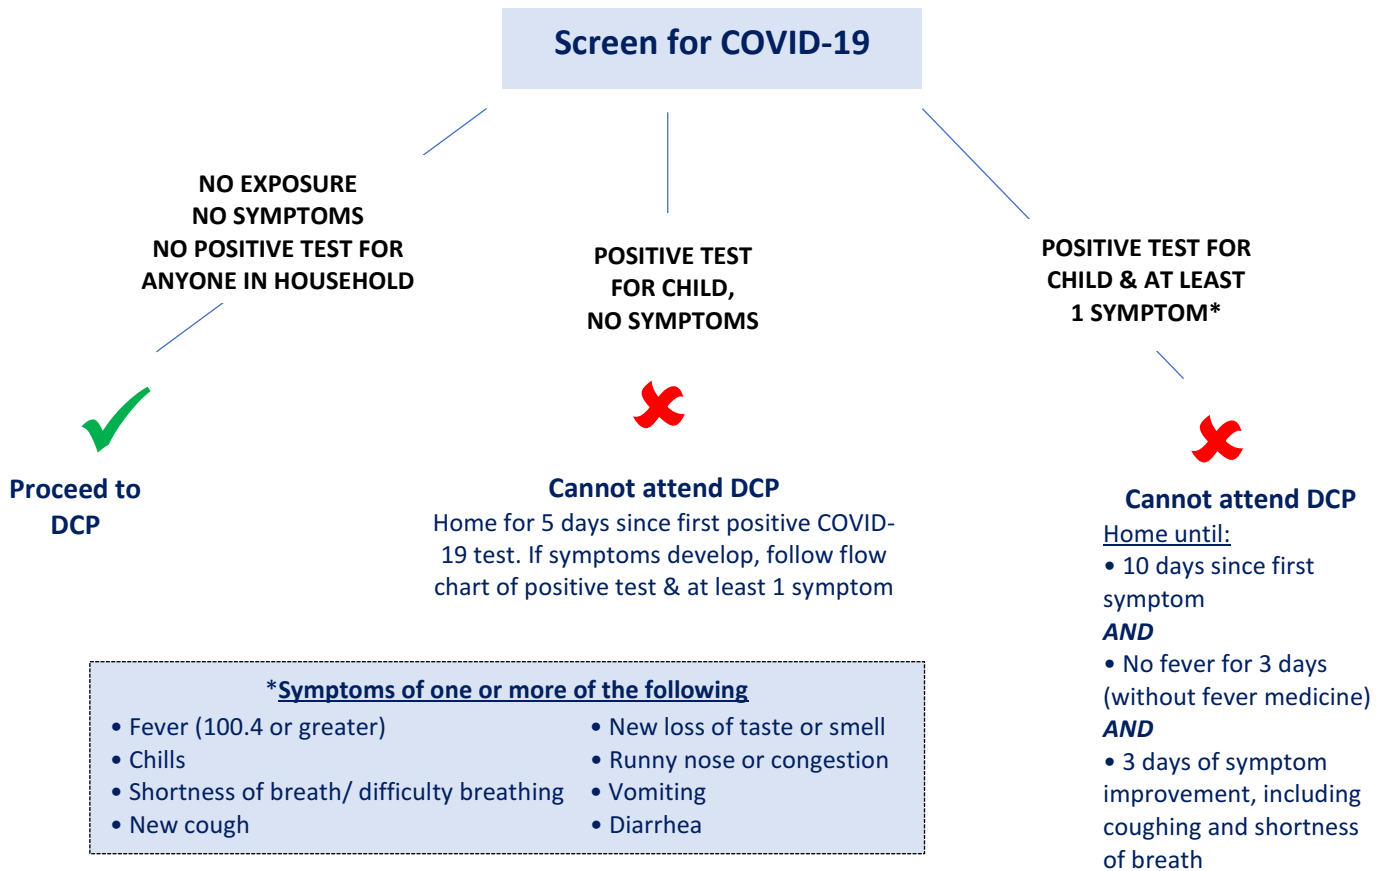

2. Since you were last at DCP, has anyone in your household been diagnosed with COVID-19?

Yes
No

If anyone in the household has been diagnosed with COVID-19 based on a test or their symptoms, children should stay at home and test before returning to preschool. People may be contagious 1-3 days before symptoms start.

Handling Suspected, Presumptive, or Confirmed Cases of COVID-19 Flow Chart and Protocol

Screening Flow Chart

* Be sure to notify the preschool if your child tests positive for covid. We will notify the preschool community (anonymously) to let others know to watch for symptoms. *

The key is for children to stay home when they are ill – whether it’s covid or something else. These measures protect the health and safety of the whole preschool community.
